

MARKO KESER

Backend Developer | C# / .NET · Java · AI & Salesforce Integrations
markokeser.dev@gmail.com | linkedin.com/in/markokeser | github.com/markokeser

PROFESSIONAL SUMMARY

Backend Developer with 4 years of experience across C# / .NET, Java, and Salesforce, currently building OpenAI-powered integrations for Salesforce orgs. Designed, built, and deployed a restaurant management system end to end (ASP.NET Core on .NET 8, MySQL, Docker) and shipped features for enterprise Java software and a U.S. client's C# web application. Brings a game-mathematics background from regulated online slot development.

TECHNICAL SKILLS

Languages: C#, Java, SQL, JavaScript, HTML, CSS
Frameworks: ASP.NET Core MVC (.NET 8), React
Databases: MySQL (schema design, query optimization)
AI & Integrations: OpenAI API, prompt engineering, REST API integration, Salesforce development & administration
Security: Claims-based authentication & authorization, role-based access control, API key management
DevOps & Tools: Docker, Git, GitHub, Railway

WORK EXPERIENCE

AI & Integration Developer | Kameleon Solutions Sep 2022 – Present

- Developed custom components tailored to business requirements across multiple Salesforce orgs.
- Built prompt-based OpenAI API integrations in Salesforce, bringing generative AI features into CRM workflows.
- Implemented secure API key management for the OpenAI integrations.
- Partnered with senior developers on Salesforce development and administration tasks.

Backend Developer | Quadro Consulting Jan 2024 – Aug 2024

- Engineered new features for enterprise Java software and integrated components across system modules.
- Delivered features for a U.S. client's C# web application.
- Diagnosed and resolved production bugs to keep live systems stable.

Backend & Game Math Developer | Wicked Games Feb 2023 – Oct 2023

- Designed the mathematical models and game rules for online slot games.
- Translated the math models into C# backend logic that resolves each game outcome.
- Ensured games complied with online gambling regulations while optimizing the player experience.

PROJECTS

Restaurant Management System | Full-Stack Web Application github.com/markokeser/Zubac-Matine

- Architected and built a restaurant management system end to end, covering orders, table management, and billing.
- Secured access with claims-based authentication and authorization, separating permissions by user role.
- Modeled the MySQL database schema and optimized queries for daily operational workloads.
- Containerized the app with a multi-stage Docker build and deployed it to production on Railway.

EDUCATION

Spanish Language Course (B1 Level) | Academia Internacional de España, Barcelona | Oct 2023 – Jan 2024

- Strengthened Spanish communication skills for professional and everyday interactions.

General Secondary Education | Gymnasium "Kosta Čaušковиć" | 2018 – 2022
